### **DETAILED ACTION**

The amendment filed 12/5/03 has been considered.

Claims 52-53 were not misnumbered.

Claims 3, 6-8, 11, 13-15, 20-21 and 52-53 are pending.

Claims 3, 6-8 and 11 and 52-53 are currently under consideration.

Claims 13-15 and 20-21 are withdrawn from consideration.

Claims 50-51 are not entered and applicant is requested to cancel these claims.

Rejoinder will be considered when methods depending from an allowed product and incorporating all the limitations of said product are presented.

### ***Claim Rejections - 35 USC § 112***

Claims 3, 6-8 and 11 remain rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The reasons for this rejection are of record in the paper mailed 8/29/03.

Applicant's main argument is that the specification provides sufficient description of the polynucleotide variants in terms of their chemical and structural features and cites the Written Description Guidelines of 3/1/00 to show that such claims are deemed allowable. The example relied on by applicant associates a function to the 95% variant. Applicant has not associated a function to his variant. Thus, the fact pattern and

conclusion in the example does not apply in applicant's case. Furthermore, just because the sequence of the variant can be determined, does not mean that the variant sequence retains activity. This is discussed in Skolnick et al discussed in the rejection in the paper mailed 8/29/03.

***Allowable Subject Matter***

Claims 52 and 53 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
